Data ? labeled landmarks & tab order

Form ? labeled landmarks & tab order

Accessibility Evidence

Skip link focus
Shows when tabbing, moves focus to <main>.

Nav disclosure
Menu toggle stores preference per session.

Focus color token
Custom outline meets 3:1 contrast (–color-focus).

Breakpoint 768px
Grid introduces aside rail.

Breakpoint 1024px
Main content constrained to 72rem.

– Keyboard: Skip link -> nav -> filters -> cards -> aside -> footer.

– Focus indicator token: –color-focus (#d97706) validated at 4.08:1.

– Responsive CSS grid templates at 480px, 768px, 1024px.

Lighthouse Accessibility Audit

Score: 100 / 100

Date: 2025-11-13

Not applicable items noted in html-snippets.md

Contrast tokens (WCAG target 4.5:1 small text, 3:1 focus)

1. –color-text-on –color-background = 13.76:1

2. –color-primary-on –color-surface = 7.71:1

3. –color-focus-on –color-muted = 2.53:1

HTML snippets included: landmark template, skip link, labeled form group, aria-current nav state. Known

Mitigation plan: expand automated tests for parse utilities, add skeleton loaders, and capture perf traces a
